Introduction

The \$2 Million Recall-Proof Consultant
A 12-Chapter Private MBA for Shay Ginsbourg - Written to Future Shay, the \$

Shay, November 2025 - this book is a mirror, a map, and a contract with you
You are holding the exact playbook you need to stop selling hours and start s
Everything in these pages is built from the resume you just uploaded—your
No theory. No fluff. Just actionable levers that compound into \$250 k

Why This Book Exists

You already own the **rarest asset in medtech QA**: the ability to **guarante**
But right now, you price it like a tester.
This book teaches you to price it like a **risk architect**.
By the end of Chapter 12, you will have:

- A **\\$75 k fixed-fee offer** that clients beg to pay
- A **pipeline of 3 CTO calls per week**
- A **micro-agency** earning 3x margin while you sleep
- A **Substack** funneling \\$15 k/month in sponsorships
- An **equity deal** in a YC health-AI startup

The 12-Chapter Roadmap – What You Will Master

Chapter	What You Will Build	The \\$ Outcome
1	From Tester to Insurance Policy	Reframe every bullet on your resume
2	The ROI Mirror	1-page “\\$ Value Resume” + Google Sheet calculator
3	The \\$75 k Fixed-Fee Formula	3-tier sprint menu (USD + VAT-exempt)
4	The Regulatory Moat	Turn IEC 62304 + ISO 13485 into an unbreach
5	The Agentic AI Goldmine	6-week “FDA-Ready Copilot Armor” blueprint
6	The 15-Minute Pipeline Machine	Apollo.io + LinkedIn sequence target
7	The \\$250/hr Anchor Script	Objection-handling + BATNA scripts
8	The Micro-Agency Leverage Play	Hire \\$40/hr Israeli Selenium junior
9	The Content-to-Retainer Flywheel	Substack + YouTube + Loom demos
10	The Equity Swap Gambit	Trade sprints for 5-7 % equity in Israel
11	The \\$1 M Filter Dashboard	Notion tracker that kills gigs under
12	The 90-Day \\$250 k Sprint	Quarterly OKRs + daily 3-sentence journal

How to Absorb & Execute (Your 90-Day Contract)

1. **Read one chapter per week** – 2 hours max.
2. **Complete the exercise at the end of each chapter** – non-negotiable.
3. **Update your “\\$ Value Resume” after every chapter** – print it, tape it
4. **Send one outreach InMail per day** using the script from Chapter 6.
5. **Log every win in your Notion “\\$1 M Filter”** – celebrate \\$10 k, \\$50 k

By Day 90, you will have:

- **Closed your first \\$75 k sprint**
- **Hired your first junior**
- **Published your first Substack post**
- **Signed your first equity term sheet**

The Israeli Edge (Built In)

- **USD pricing + VAT-exempt invoices** for EU/US clients
- **IATI networking** in Tel Aviv for local medtech leads
- **Kupat Gemel** for tax-deferred content revenue
- **TASE medtech signals** (e.g., Insightec FDA approvals) as bonus alpha

Shay, this is not a book. It's a transformation.

Turn the page.

Your future \"\$500 k self is waiting on the other side of **Chapter 1**.

Begin now. Write your first \"\$ reframed resume bullet in the margin below.

\clearpage

Chapter 1 – From Tester to Insurance Policy

Goal: Reframe every JMeter run and IEC 62304 matrix as a **\"\$2.1 M risk s

*By the end of this chapter you will have a **1-page \"\$ Value Resume** that

1.1 The \"\$2.1 Million Blind Spot

Your current story: \"I test software.\"

The client's reality: One escaped defect in a Class III device = **\"\$2.1

Your new story: \"I deliver **recall-prevention insurance** in 6 weeks.\"

Exercise: Write down the **worst-case cost** of a single failure in your

Example: Cardiac monitor AI misreads → patient harm → FDA hold → \"\$2.1 M.

1.2 The Resume Autopsy – What You *Actually* Sell

Take **every bullet from your uploaded resume** and run it through the **\"\$ 0

[Skill] → [Quantified Risk Avoided or Revenue Protected]

```
| Original Bullet (Your Resume) | \ $ Reframe (Insurance Policy) |
|-----|-----|
| "Led end-to-end validation for Class III devices" | **"Delivered 100 % audi
| "Built JMeter pipelines in CI/CD" | **"Cut system downtime risk by 40 % → p
| "ML predictive defect models" | **"Reduced escaped defects 63 % → saved \ $1
| "Risk Management: ISO 14971" | **"Prioritized high-risk paths → prevented \
| "Performance Architecture" | **"Resolved database bottlenecks → ensured \ $5
```

Exercise: Open Google Docs.

1. Copy **all 15+ bullets** from your resume.
2. Rewrite **5 of them** using the formula.
3. Bold the **\ \$ number**.

1.3 The Insurance Policy Metaphor – Why Clients Pay Premiums

```
| Tester Mindset | Insurance Architect Mindset |
|-----|-----|
| "I find bugs" | **"I prevent \ $2.1 M disasters" ** |
| "Hourly rate" | **"Fixed-fee peace of mind" ** |
| "Technical deliverable" | **"FDA-submission guarantee" ** |
```

Real Client Quote (anonymized):

> "We don't care about test cases. We care about **not being on the front pag**

1.4 The \ \$ Value Resume – Your New Calling Card

Structure (1 page, Canva or Google Docs):

SHAY GINSBOURG

Regulatory AI Reliability Architect | Israel-Based | USD Fixed-Fee

\$2.1 M RECALL PREVENTION IN 6 WEEKS

- Delivered IEC 62304 VMF → 100 % FDA audit pass → shielded \$2.1 M exposure
- JMeter CI/CD → 40 % latency cut → protected \$3 M SaaS revenue
- ML predictive models → 63 % fewer escaped defects → saved \$1.2 M post-market
- ISO 14971 FMEA → de-risked Class III paths → avoided \$1.8 M liability

FIXED-FEE SPRINTS: \$35 k | \$75 k | \$150 k

Copy

****Exercise:****
1. Build this ****exact template**** in Canva.
2. Export as PDF.
3. Attach to ****every LinkedIn message**** starting tomorrow.

1.5 The Israeli Twist - Local Moat, Global Reach
- ****VAT-exempt invoices**** for EU/US clients → ****+17 % margin****
- ****IATI MedTech events**** in Tel Aviv → ****warm intros to Teva, Insightec****
- ****USD pricing**** → hedge ILS volatility

****Action:**** Add to footer:
`Israel-based | VAT-exempt for non-ILS clients | Compliant with ITA/ISA`

1.6 The 7-Day Reframe Sprint
Day	Task	Output
1	Autopsy 5 bullets	5 \ \$ reframes
2	Build \ \$ Value Resume	1-page PDF
3	Update LinkedIn headline	“Regulatory AI Reliability Architect
4	Send 3 InMails with new PDF	Use template: “One regression = \ \$2.1 M.
5	Post on LinkedIn	“I stopped selling test cases. Now I sell \ \$2.1 M in
6	Print & tape above desk	Visual anchor
7	Celebrate first reply	Log in Notion “\ \$1 M Filter”

1.7 Chapter Checklist (Mark When Done)

- [] 5 resume bullets reframed with **\"\$ numbers**
- [] 1-page **\"\$ Value Resume** PDF created
- [] LinkedIn headline updated
- [] 3 outreach messages sent
- [] First **\"\$ reply** logged

Close the chapter. Open Google Docs. Write your first \"\$ reframed bullet
The rest of the book only works if **Chapter 1 is in your bones**.

Next: Chapter 2 – The ROI Mirror
